BRANCH BUDGET

The State/Executive Branch Budget Bill continues services and statutory programs in the 2008-2010 fiscal biennium based upon reduced fiscal year 2007-2008 funding levels as revised by the General Fund Budget Reduction Order 08-01. This Order reduced General Fund appropriations by \$65,262,416 and Restricted Funds appropriations by \$8,873,600 in fiscal year 2007-2008. The Order also increased resources to the General Fund through additional fund transfers of \$42,324,600 in fiscal year 2007-2008.

The State/Executive Branch Budget Bill continues services and statutory programs in the 2008-2010 fiscal biennium based upon mandatory General Fund lapses of \$174,143,584 in fiscal year 2007-2008, \$2,500,000 in fiscal year 2008-2009, and \$2,250,000 in fiscal year 2009-2010.

The State/Executive Branch Budget Bill, Part IV, State Salary/Compensation and Employment Policy, addresses salary increments, retirement, health insurance, and personnel complement.

The State/Executive Branch Budget Bill, Part I, Operating Budget, includes a language provision that directs:

"Energy Research and Development: Included in the above Restricted Funds appropriation is \$3,500,000 in fiscal year 2008-2009 and \$3,500,000 in fiscal year 2009-2010 which shall be used for research projects relating to clean coal, new combustion technology, thin-seam coal extraction research, synthetic natural gas produced from coal through gasification processes, and the development of alternative transportation fuels produced by processes that convert coal or biomass resources or extract oil from oil shale and shall be targeted solely to Kentucky's Local Government Economic Development Fund-eligible counties. The Office of Energy Policy shall coordinate its efforts with those of Kentucky's universities and related Kentucky Community and Technical College System programs in order to maximize Kentucky's opportunities for federal funding and receive research grants and awards from federal and other sources of funding for the development of clean coal technology, coal-to-liquid-fuel conversion, alternate transportation fuels, and biomass energy resources."

The Executive Branch Budget supporting documents provide a Restricted Fund appropriation of \$3.5 million in each fiscal year for energy research and development grants (these funds are derived from coal severance receipts) and a Restricted Fund appropriation of \$400,000 in each fiscal year of the biennium for public education of coal-related issues pursuant to KRS 132.020(5).

HOUSE REPORT

The House concurs with the Branch with the following changes:

ENERGY POLICY

The House increases General Fund support totaling \$1,000,000 in each fiscal year to support carbon management research at the University of Kentucky Center for Applied Energy Research.

The House amends the State/Executive Branch Budget Bill, Part I, Operating Budget, language provision relating to Energy Research and Development as follows:

"Energy Research and Development: Included in the above Restricted Funds appropriation is \$3,500,000 in fiscal year 2008-2009 and \$3,500,000 in fiscal year 2009-2010 which shall be used for research projects relating to clean coal, new combustion technology, coal extraction, safety, tracking and communication devices, coal slurry disposal, synthetic natural gas produced from coal through gasification processes, and the development of alternative transportation fuels produced by processes that convert coal or biomass resources or extract oil from oil shale, and other coal research and shall be targeted solely to Kentucky's Local Government Economic Development Fund-eligible counties. The Office of Energy Policy shall coordinate its efforts with those of Kentucky's universities and related Kentucky Community and Technical College System programs in order to maximize Kentucky's opportunities for federal funding and receive research grants and awards from federal and other sources of funding for the development of clean coal technology, coal-to-liquid-fuel conversion, alternate transportation fuels, and biomass energy resources."

The House amends the State/Executive Branch Budget Bill, Part I, Operating Budget, to include the following language provision:

"Carbon Management Research: The General Assembly recognizes the importance of proactively addressing the issue of carbon management in existing coal-fired and natural gas-fired power plants, and the need for the development of technologies to address carbon emissions from all sources. Further, the General Assembly recognizes that it is vital for the economic well-being of the Commonwealth and its citizens that technologies and strategies for the capture, utilization, or mitigation of carbon dioxide emissions be developed and demonstrated.

Therefore, included in the above General Fund appropriation is \$1,000,000 in fiscal year 2008-2009 and \$1,000,000 in fiscal year 2009-2010 for the purpose of supporting research and development activities at the University of Kentucky Center for Applied Energy Research directed toward the development and demonstration of technologies for carbon management. These technologies may include: chemical or mechanical capture, chemical or biological utilization, mitigation through the use of alternative fuel sources, or other relevant technologies. The University of Kentucky Center for Applied Energy Research is encouraged to use these funds to match available federal and private funds to the extent possible."
